1. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

2. Claim 17 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 17, line 3, the phrase "said a semiconductor body" is unclear whether it is being referred to said semiconductor body of claim 1; lines 3-5, the phrase "said a semiconductor body, said body zone, said source metallization, said source zone, and said region are formed on said carrier wafer by SOI technology" is unclear whether the semiconductor body, the body zone, the source metallization, the source zone, and the region are formed on an insulating layer that formed on the carrier wafer.

- 3. Claims 1-16 and 18 are allowed.
- 4. The following is a statement of reasons for the indication of allowable subject matter: The major difference in the claims not found in the prior art of record is the region inlaid in said body zone being short-circuited at least to the drain-side part of the body zone.
